What is JavaScript Libraries

- ❑ One of the benefits of keeping different kinds of code separate is achieving **Code Reuse**.
- ❑ Certain JavaScript developers have taken the time to assemble vast libraries of useful, unobtrusive JavaScript code for us to download and use on our own web sites for free.

Why use JavaScript Libraries

- ❑ JavaScript Libraries are a set of files that you include to make your life easier as a programmer.
- ❑ It's a library so it has tried and tested code.
- ❑ Decent support and documentation.
